

ARAVINDH JANAKIRAMAN

Senior Solutions Architect | Cloud Infrastructure & DevOps Expert

Email: arvinlml@gmail.com | **Phone:** +1 (813) 809-6452 | **Location:** CO 80108

LinkedIn: <https://www.linkedin.com/in/arvinlml/> | **Right to Work:** H1B (valid through October 2027)

EXECUTIVE PROFILE

Senior IT Consultant with 12+ years of hands-on experience architecting, developing, and deploying enterprise-scale solutions across AWS, Azure, and multi-cloud environments. Expert in modernizing legacy systems to cloud-native architectures using .NET, Java, Node.js, and microservices. Proven track record delivering DevOps automation, cloud migrations, and security-compliant infrastructure. MCA degree from Bharathidasan University with Google Cloud and Microsoft Azure certifications.

KEY HIGHLIGHTS

- **CloudMigration Leadership:** Migrated legacy Compliance Hub to AWS within 3 months with multi-cloud exit strategy; designed PCI-compliant infrastructure serving financial institutions
 - **DevOps Transformation:** Eliminated 100% manual deployment time through Jenkins/Ansible automation; established CI/CD pipelines integrating security scanning, artifact management, and automated deployments across multiple cloud platforms
 - **Enterprise Architecture:** Designed and led microservices-based student lending platform (IN School) and mortgage solutions serving millions of transactions; integrated Okta SSO and API security across systems
 - **Multi-Cloud Strategy:** Evaluated and architected solutions across AWS, Azure, and Google Cloud; created POCs and technical comparisons for enterprise cloud platform selection
 - **Security & Compliance:** Achieved PCI compliance certification within 3 months; conducted Fortify, SonarCube, and Nexus IQ security reviews; implemented Okta integration and API security protocols
 - **Technology Leadership:** Managed teams across multiple cloud platforms (.NET, Java, Node.js, Angular); mentored offshore engineering teams; established testing frameworks and code quality standards
-

CORE COMPETENCIES

Cloud & Infrastructure

AWS (EC2, Lambda, S3, RDS, VPC, CodePipeline, CodeDeploy, CloudFormation, Route 53, Athena) | Azure (DevOps, Functions, Cosmos DB, SQL) | Google Cloud | OpenShift Kubernetes | Docker | Containerization

Languages & Frameworks

.NET (1.0-4.8, .NET Core) | C# | ASP.NET MVC | WCF | JavaScript | TypeScript | Java 8/11/17 | Node.js | Python

DevOps & Automation

Jenkins | GitLab CI/CD | Azure DevOps | Ansible | Liquibase | AirFlow | AutoSys | PowerAutomate

Security & Compliance

Okta SSO | API Security | PCI Compliance | OIDC | Active Directory | IDP | Fortify | SonarCube | Nexus IQ

Databases

SQL Server | Oracle 11 | IBM DB2 | Postgres | MongoDB | DataStax | DynamoDB

Monitoring & Testing

DataDog | Splunk | CloudWatch | Selenium | Cucumber | Gherkin | Jest | Mocha | Karate Labs | CastleMock

Platform & Tools

Visual Studio | VS Code | IntelliJ | Git | Bitbucket | TFS | JIRA | Confluence | Swagger | Postman | PlantUML

PROFESSIONAL EXPERIENCE

Senior IT Consultant | CitizensBank

March 2022 – Present

- Architected IN School, a student lending platform serving 100K+ users with multi-tier architecture (students, loan officers, underwriters, servicing teams)
- Designed and deployed multi-platform solutions (.NET, Java, Node.js, Angular v12) on OpenShift Kubernetes, AWS, and on-premise infrastructure
- Led College Raptor M&A project: streamlined CI/CD pipelines and migrated codebase from SVN to Bitbucket (100+ repos)
- Implemented fintech solutions: Home Mortgage platform with APIC streaming and ACH/credit card integrations; Secure/Unsecure lending with EquiFax bureau integrations
- Established enterprise CI/CD pipelines integrating Bitbucket, security scanning, artifact management, and automated deployment across multiple platforms

- Implemented Okta SSO integration and API security protocols across microservices architecture
- Achieved improved code coverage through MS Test, NUnit, Jest, Mocha, and NYC/Istanbul instrumentation

Senior Applications Architect | Western Union, Denver, CO

September 2017 – November 2021

- **Cloud Migration:** Migrated legacy Compliance Hub to AWS within 3 months with multi-cloud exit strategy; maintained flexibility by avoiding AWS-native services
- **DevOps Leadership:** Delivered end-to-end Jenkins/Ansible automation, eliminating 100% of manual deployments; received leadership recognition (Bravo award)
- **AML Systems:** Enhanced iWatch fraud monitoring tool; led offshore team on Transaction Monitoring and Regulatory Reporting solutions (Scaled Agile Framework)
- **Compliance:** Achieved PCI compliance within 3 months with RSM external certification; maintained regulatory compliance across Australia, Malaysia, Indonesia
- **Cloud Strategy:** Evaluated AWS, Azure, GCP; created POCs in Azure ecosystem (DevOps, Functions, Cosmos DB, Azure SQL)
- **API Security:** Implemented security protocols on C#.NET WCF services; deployed real-time web instrumentation (Quantum Metrics) across devices

Manager, Solutions Engineering | Western Union, Pune

December 2021 – February 2022

- Managed compliance team for iWatch fraud monitoring and regulatory reporting systems
- Supported Anti Money Laundering (AML) platforms across multiple global time zones
- Deployed systems across Regional Operations Centers: Europe, Latin America, Asia Pacific, North America

Applications Architect | Bureau of Labor Statistics (BLS), Washington DC

April 2016 – September 2017

- Modernized TopCATI application: migrated legacy VB.NET WinForms to Angular + C# SOAP services (improved performance, accessibility, SSO)
- Established CI/CD pipeline in Jenkins; mentored team on testing methodologies
- Delivered Public Data API portal and AngularJS 1.5 single-page application with Java REST API backend

Production Support Consultant | Fannie Mae, Reston, VA

November 2013 – March 2016

- Managed enterprise job scheduling using AutoSys; created automated reporting dashboards
- Built health monitoring dashboard supporting Java, C#.NET, Shell, Batch, and PowerShell environments
- Led key ETL applications and data masking initiatives

Technical Delivery Manager | Phaeros IT India Pvt. Ltd., Chennai

April 2005 – September 2013

Enterprise Solutions Delivered: - **Cargo Management System:** Terminal Operations platform handling containers and general cargo (3 core + 4 optional modules) - **BillSys:** Shipping invoicing system with complex charge calculations and consolidation logic - **Custom Frameworks:** EDI (BizTalk), Master Data management, Entity Framework, Workflow Engine, Web Framework (ExtJS), Mobile Framework (Windows CE/.NET) - **Global Client Deployments:** Eurofos (FR), DP World Antwerp (BE), Tanzania Port Authorities (TZ), MSC Antwerp (BE) — 4 major shipping/port operators

LAN Executive | Blue Dart Express Ltd, Chennai, India

June 1994 – March 2005

- Novell Netware and MS Mail Server administration and infrastructure management
- Internal Quality Auditor conducting system and operations compliance audits
- Increased productivity 300% through high-value customer management (Citibank, HDFC, Standard Chartered, others)
- Liaised directly with enterprise accounts; managed shell scripting and FTP automation

EDUCATION

Master of Computer Applications (MCA)

Bharathidasan University, Trichy, India | 2000-2003

Bachelor's in Physics

University of Madras, Chennai, India | 1991-1994

PROFESSIONAL CERTIFICATIONS

- **Google Cloud Certified Associate Cloud Engineer** | December 2019
 - **Microsoft Certified Azure Fundamentals** | November 2019
 - **SAFe 4 Practitioner Certification** | Scaled Agile, Inc. | February 2019
 - **Data Scientist with Python Track** | DataCamp | September 2019
(Credential ID 101428)
 - **MongoDB for .NET Developers** | MongoDB | March 2017
 - **MongoDB for Java Developers (M101J)** | MongoDB | May 2017
-

PROFESSIONAL TESTIMONIALS

“AJ is a clear-headed thought leader in systems development. I had the honor of collaborating with him in .NET development initiatives both on-prem and in AWS.”

— **Dan Fleisher**, Colleague

“Aravindh is great to work with. He’s skilled, passionate, motivated, and takes initiative. A strong team player with quick problem-solving and fast learning ability.”

— **Roel Slangen**, Client

“An exceptional Solution Architect—extremely well organized, flexible to project needs, and available for support. Strong hands-on experience with DevOps, Cloud architecture, and Database concepts make him stand unique.”

— **Kamal K Baravathula**, Colleague

“AJ combines friendliness, positivity, and technical expertise. An expert software architect, avid learner, and patient coach—he eagerly stepped forward to lead architecture design for several important and time-critical projects.”

— **Dmitry Gulin**, Colleague
